

JERICO ANGELO N. MADRIGAL

7-0160 T. Valdellon St., Bagumbayan, Paete, Laguna | madrigaljeric09@gmail.com | 0927 019 6964

PROFESSIONAL SUMMARY

Information Technology graduate specializing in Service Management, with hands-on experience across UI/UX design, technical documentation, database design, software testing, and systems development. Completed a DOST internship contributing across multiple technical workstreams on a government Decision Support System, and independently delivered two end-to-end web-based projects from requirements through launch. Strong communicator with a customer-first mindset, process-improvement training, and the technical foundation to contribute across IT, operations, and service-focused roles.

EXPERIENCE

Intern — UI/UX Design, Technical Writing & Database Design

March 6 – May 12, 2026

Department of Science and Technology (DOST)

- Designed full interactive prototypes in Figma/Adobe XD for a Decision Support System (DSS), translating stakeholder requirements into user-friendly interface flows.
- Authored system and user manuals for the DSS, documenting workflows, features, and expected system behavior to support onboarding and quality verification.
- Designed a relational database schema for the DSS, structuring data tables and relationships to ensure accurate and reliable system outputs.
- Coordinated across design, documentation, and database workstreams within a single project timeline, managing multiple deliverables independently.

ACADEMIC PROJECTS

HandyHub — Booking Platform

Aug 2024 – Present

Service Management Program, LSPU Siniloan | HTML, CSS, JavaScript, PHP, MySQL

- Built a web-based booking platform connecting residents with local home service providers, handling front-end development, database design, and user experience.
- Applied customer service workflows and data organization to ensure smooth coordination between residents and providers.

BNS Assist — Web-Based Support System

Aug 2024 – Present

Service Management Program, LSPU Siniloan | HTML, CSS, JavaScript, PHP, MySQL

- Designed and developed a support system for Barangay Nutrition Scholars, covering task scheduling, records management, and communication features.
- Improved record accuracy and workflow efficiency by structuring data and aligning system features with end-user needs.

EDUCATION

Bachelor of Science in Information Technology, Major in Service Management

Aug 2022 – Present

Laguna State Polytechnic University, Siniloan Campus

- Dean's Lister, 2022–2024 — Academic Excellence
- Champion, Crimp-a-thon 2024 — Department Competition

SKILLS

Technical: HTML, CSS, JavaScript, PHP, MySQL, Figma, Adobe XD, Database Design, Manual Testing & QA, Technical Documentation

Tools: Google Workspace (Docs, Sheets, Drive), Microsoft Office (Word, Excel), Canva

Professional: Project Coordination, Stakeholder Communication, Records Management, Problem-Solving, Time Management, Team Collaboration, Adaptability

Languages: English & Tagalog
